Avolve Software offers the most trusted and proven electronic plan review solution in the marketplace. Over 100+ cities and counties in the US and Canada are using our solutions - and one in every five citizens live in jurisdictions served by ProjectDox(R). Our suite of complementary products is designed to bring efficiency and ease to the process lifecycle of submitting, reviewing, approving, storing and accessing building plans and data in your jurisdiction.

B & F Construction Code Services, Inc.

B & F Construction Code Services, Inc. is a plan review and inspection consulting agency. We provide plans reviews for all types of projects from single-family homes to high rise buildings. The reviews include all disciplines: building, mechanical, plumbing, electric, energy, fire protection and accessibility. Local or state amendments can be included for no additional fee. Plan reviews are done in 9 business days for the first review and 5 business days for re-reviews. A single fee is charged with no additional fee for re-reviews. All reviewers are certified in the disciplines they review.
BerryDunn is an independent assurance, tax, and consulting consulting firm with extensive experience in the public sector. We have partnered with more than 250 state, county, and municipal government agencies nationwide, helping to guide their most complex management and IT projects. Our dedicated local government consulting team provides customized guidance based on best practices that help you implement the right technology and most efficient business processes. Our team focuses on business process improvement and system selection projects for planning, permitting, licensing, inspections, and code enforcement. Improving these areas of operations will reduce manual processes while increasing timeliness and transparency.

BS&A has served municipalities with industry leading community development software. The Company has earned a reputation for seamlessly integrated applications that provide innovative and value-driven solutions backed by unmatched service and support.

Building & Fire Code Academy is an Illinois approved vocational trade school. Training is available for all disciplines. It can be provided directly to your municipality, service organization or company. Customization is available to fit the needs of your audience. All attendees receive a certificate, which can be used to renew certifications. Continuing education hours are granted through IACET, AIA, ALA, the Illinois Office of the State Fire Marshal and the Illinois Board of Higher Education. Classes can be presented in a classroom, in a webinar and soon through e-learning.
Building Performance Institute, Inc
www.bpi.org/pros

BPI is the nation's premier building performance credentialing, quality assurance and standards setting organization. BPI develops technical standards using an open, transparent, consensus-based process built on sound building science. From these standards, we develop professional certifications for individuals, company-wide credentials for BPI GoldStar Contractors, home energy rating systems and quality assurance services that help raise the bar in home performance contracting. BPI is approved by the American National Standards Institute, Inc. (ANSI) as an accredited developer of American National Standards and as a certifying body for personnel credentials.
