TAKING A PRONTO EXAM AT ICC’S ANNUAL CONFERENCE? HERE’S WHAT YOU NEED TO KNOW:

What you must have:

- Laptop or tablet—size is up to you, but we recommend a minimum of a 10-inch screen
  - If using a tablet, bring a stand—your tablet cannot lie flat on the table and must be easily visible to your proctor
- A power cord—if your device runs out of power during the exam, you will forfeit your exam fee
- Ability to connect to our wi-fi connection
- Any references (copyright, bound) that you wish to use during the exam

What you don’t have to have:

- Webcam and two-way audio
- Tablet “pencil” or stylus—these are prohibited
- Touch-screen device—in fact, you may want to bring a mouse for best functionality with our software, especially if you’re using a tablet

ICC strongly recommends you test the device you plan to use in advance of your test date. Proctors cannot be held liable for devices that malfunction, run out of power during the exam, or are not compatible with our online testing system.
To test your device, visit https://pronto.iccsafe.org/support.
