ASHRAE Standards Now Available as Online Download Offerings from ICC

For easy access and application for codes and standards users, the [International Code Council](http://www.iccsafe.org) (ICC) is collaborating with [ASHRAE](http://www.ashrae.org) to make construction industry safety standards as referenced in the [2012 International Codes](http://www.iccsafe.org), available to the building industry in a downloadable PDF format on the [ICC website](http://www.iccsafe.org).

“In today’s mobile, digital environment, building officials and other professionals demand information anytime, anywhere—including industry standards. We are proud to feature additional ASHRAE titles in our growing digital standards library,” said ICC Senior Vice President of Business and Product Development Mark A. Johnson.

The latest series of standards from ASHRAE available in the [ICC digital standards library](http://www.iccsafe.org) include, but are not limited to:

- *ANSI/ASHRAE 15 — 2010 — Safety Standard for Refrigeration Systems and Standard 34-2010 — Designation and Classification of Refrigerants*
- *ANSI/ASHRAE 62.1 — 2010 Ventilation for Acceptable Indoor Air Quality*
- *ANSI/ASHRAE/IES 90.1 — 2010 Energy Standard for Buildings Except Low-rise Residential Buildings (ANSI/ASHRAE/IESNA 90.1 — 2007)*
- *ANSI/ASHRAE 140 — Standard Method of Test for the Evaluation of Building Energy Analysis Computer Programs (2007 and 20011)*
- *ASHRAE 193-2010 Method of Test for Determining the Airtightness of HVAC Equipment*
- *ANSI/ASHRAE 55-2010 Thermal Environmental Conditions for Human Occupancy*
- *ANSI/ASHRAE 62.2-2010 Ventilation and Acceptable Indoor Air Quality in Low-Rise Residential Buildings*

To download ASHRAE standards, visit the [ICC website](#).

“ICC works with more than 25 standards developers,” Johnson said. “This is part of ICC’s continued effort to make the referenced standards available in as many offerings as possible in order to address the needs of our members which include mobility and portability.”

The [International Code Council](#) is a member-focused association dedicated to helping the building safety community and construction industry provide safe and sustainable construction through the development of codes and standards used in the design, build and compliance process. Most U.S. communities and many global markets [choose the International Codes](#).
