RE: Code Committee Application additional information.

1. I am interested in taking part in the ICC Code Committees in either the IBC-G or IRC-B for the 2018/2019 cycle.
2. I began working in the commercial construction industry in 1989 as a laborer on a hospital addition for Dunn Construction. Over the next 10 years working in the industry I graduated from Auburn University with a degree in Building Science in December 2000. I went to work for Hardin Construction in their Tampa Office as a Project Engineer after my graduation and worked on numerous projects before transferring to their Atlanta Office in 2002 as an Assistant Superintendent. I have enclosed my resume from that timeframe.
3. In 2004 I was hired by the City of Athens, Alabama as a Building Inspector during a commercial construction boom in the area and I have been conducting Combination Inspections ever since. I have numerous ICC Certifications and continue to work my way to the CBO Certification. I am also a member to the North Alabama Code Officials Association which is where I found out about ICC's need for volunteers to take part in Committees.
4. I have also been an Army Engineer in the USAR for the last 19 years with multiple deployments providing engineering support in Iraq, Afghanistan and South Korea. I will retire at the end of 2017 and I am looking to expand my involvement in the Building Codes Industry.

Point of contact for this memo is the undersigned at the Building Inspection Department at 256-233-8724.
