Mr. Adolf Zubia, President
International Code Council
500 New Jersey Ave NW
Washington, DC 20001

Dear President Zubia,

The members of the Code Officials Conference of Michigan have received a number of correspondences regarding the actions of the Board of Directors for the ICC. Michigan has been feeling the effects of this recession for longer than most of the rest of the country and we understand the tough decisions that need to be made.

The Code Officials Conference of Michigan supports the actions that the ICC has taken to ensure the viability of the organization. We support the leadership of the ICC, and are sure that you have the best interest of the membership in mind when making your decisions.

The State of Michigan is beginning the process of adopting and administering the 2009 International Codes. The Code Officials Conference of Michigan will continue to encourage and support the use of the ICC codes for the State of Michigan.

Respectfully,

Bill Benoit
President COCM
