Dear IAS Accredited Testing Agency:

Pick up new business for your laboratory by playing a part in the ICC-ES® PMG™ Program!

ICC Evaluation Service, Inc.® (ICC-ES®) invites all laboratories accredited by the International Accreditation Service (IAS) to be listed on the ICC-ES® web site as qualifying to perform testing under the ICC-ES® Plumbing, Mechanical and Fuel Gas (PMG™) Program. The PMG™ Program is designed to provide product manufacturers, code officials and construction professionals with a one-stop shop, and streamlined service, to verify that PMG™ products comply with applicable codes and standards such as:

- The *International Plumbing Code* (IPC) and the *Uniform Plumbing Code* (UPC).
- The new low-lead requirements of the California Health and Safety Code.
- The Environmental Protection Agency's WaterSense requirements.
- ANSI/ASME standards.
- ASSE standards.
- NSF standards.

The list on the ICC-ES® web site will help companies seeking recognition under the PMG program, by identifying laboratories that can perform PMG-related testing. Any laboratory currently accredited by IAS for testing of PMG™ and PMG-related products is eligible to register with ICC-ES® to be included on the list.

Registration as a PMG™ laboratory is free of charge. (However, you will be asked to renew the registration every six months.)

If you are interested in being listed on the ICC-ES® PMG™ web pages, we ask that you take the time to complete the enclosed registration form and submit it to ICC-ES®. (We are also enclosing a sample of the kind of information we are looking for.) Your registration form will be reviewed and if your laboratory qualifies, the information will be added to the list of PMG laboratories. Registration is a plus for ICC-ES® clients, a plus for ICC-ES®, and certainly positive exposure for your laboratory.

We look forward to your participation in the PMG™ Program. If you have questions, please feel free to contact me at 562-699-0541, extension 3447, or by e-mail at jzaragoza@icc-es.org.

Respectfully,

Juan Zaragoza
Client Service Manager
