Get Training From the Experts Who Produce the I-Codes

The International Code Council is pleased to introduce **three new training options**, allowing you to select the training topic and seminar materials that best suit your group's needs and budget. Half-, full- and two-day courses are available on a number of topics.

STANDARD
Includes a PDF of the PowerPoint presentation, which you can distribute to your group.

FLEX
Choose from either a PDF of the PowerPoint presentation or seminar workbooks. The seminar workbook option includes the PDF PowerPoint presentation for you to distribute so your attendees can easily follow along with the instructor.

PREMIUM
Choose PREMIUM training to include premium seminar workbooks for your group (available at a discounted price—a great reference tool!) plus the PDF of the PowerPoint presentation you can print so your attendees can easily follow along with the instructor.

Groups that schedule more than one day of training are eligible for the *Train More, Save More* discount. Plan to use ICC training year after year—loyal customers receive additional discounts!

ICC provides training for a variety of customers including ICC Chapters, building safety departments, fire departments, state agencies, architectural and engineer firms, professional associations, and contractor companies, and any other interested organization. ICC annually presents over 500 Hire ICC to Teach seminars providing training to more than 20,000 participants.

Select STANDARD, FLEX or PREMIUM, and Plan Your Training
Access ICC's **best-in-class training** and reap the benefits of learning from the **experts who produce the I-Codes**. Visit www.iccsafe.org/HireICC for more information and to view course descriptions.
