

# Wayne Trusty

President, Wayne B. Trusty & Associates Limited

President of Wayne B. Trusty & Associates Limited, has more than 40 years' consulting experience on a wide spectrum of subjects including the environment, resource economics, water resources, transportation, energy policy, and regional development. He was an Adjunct Associate Professor on the University of Calgary's Faculty of Environmental Design, a former member of the board of the Green Building Initiative, and served as Chair of the Technical Committee established in the U.S. to take the Green Globes rating system through an American National Standards Institute update process. He is chair of the ASTM working group that developed a standard practice for whole building LCA, and works as a consultant on various aspects of Environmental Product Declarations (EPDs). He participates on a number of committees, provides education on LCA and EPDs, and is a frequent speaker on LCA and EPDs at sustainable infrastructure and building conferences.
