

# BIO

## **Kevin Day**

Kevin Day has worked with the California Building Standards Commission in various capacities since September 2010, primarily in the area of legislation. His current responsibilities at CBSC include the development of building standard regulations for the triennial and intervening code adoption cycles, including review of standards proposed by other state agencies.

He also advises executive staff on various state policies and procedures, manages special projects, and contributes extensively to CBSC's legislative program. Recent projects include coordinating with various state agencies and model code publishers on the codification and publication of the 2019 California Electrical, Mechanical and Plumbing Codes (Parts 3, 4, and 5 of Title 24, California Code of Regulations).
