

BIO

Mia Marvelli

Mia Marvelli was appointed the California Building Standards Commission (CBSC) Executive Director in February 2016. Marvelli joined CBSC in 2012 with 20 years of prior state service.

Before being named executive director, Marvelli served CBSC as an associate architect administering the adoption, approval, and publication processes for California's building codes. In addition, she developed various building standard regulations on behalf of CBSC, including green building standards.

During her tenure with the Departments of Water Resources and General Services, Marvelli developed construction drawings for new and existing state facilities in compliance with the California Building Standards Code, Title 24, California Code of Regulations.

Mia is a California native, born and raised in Sacramento.
