Learning Center Tutorial

Let us help you to navigate the learn.iccsafe.org website. **Registering is as easy as 1-2-3!**

1. SIGN-IN

Go to learn.iccsafe.org and click Sign In in the upper right corner of the screen. Use your MYICC login. If you do not have a MYICC login, you can register as a new user from the login screen. If you do not want to sign in, you can still view the website and class calendar. Sign in will be needed to register.

2. VIEW CLASS CALENDAR

You can view classes by finding them in the categories listed on the homepage or by simply clicking *class calendar*. Once in the calendar, you can then click on the desired class for a full description and registration.

3. REGISTER

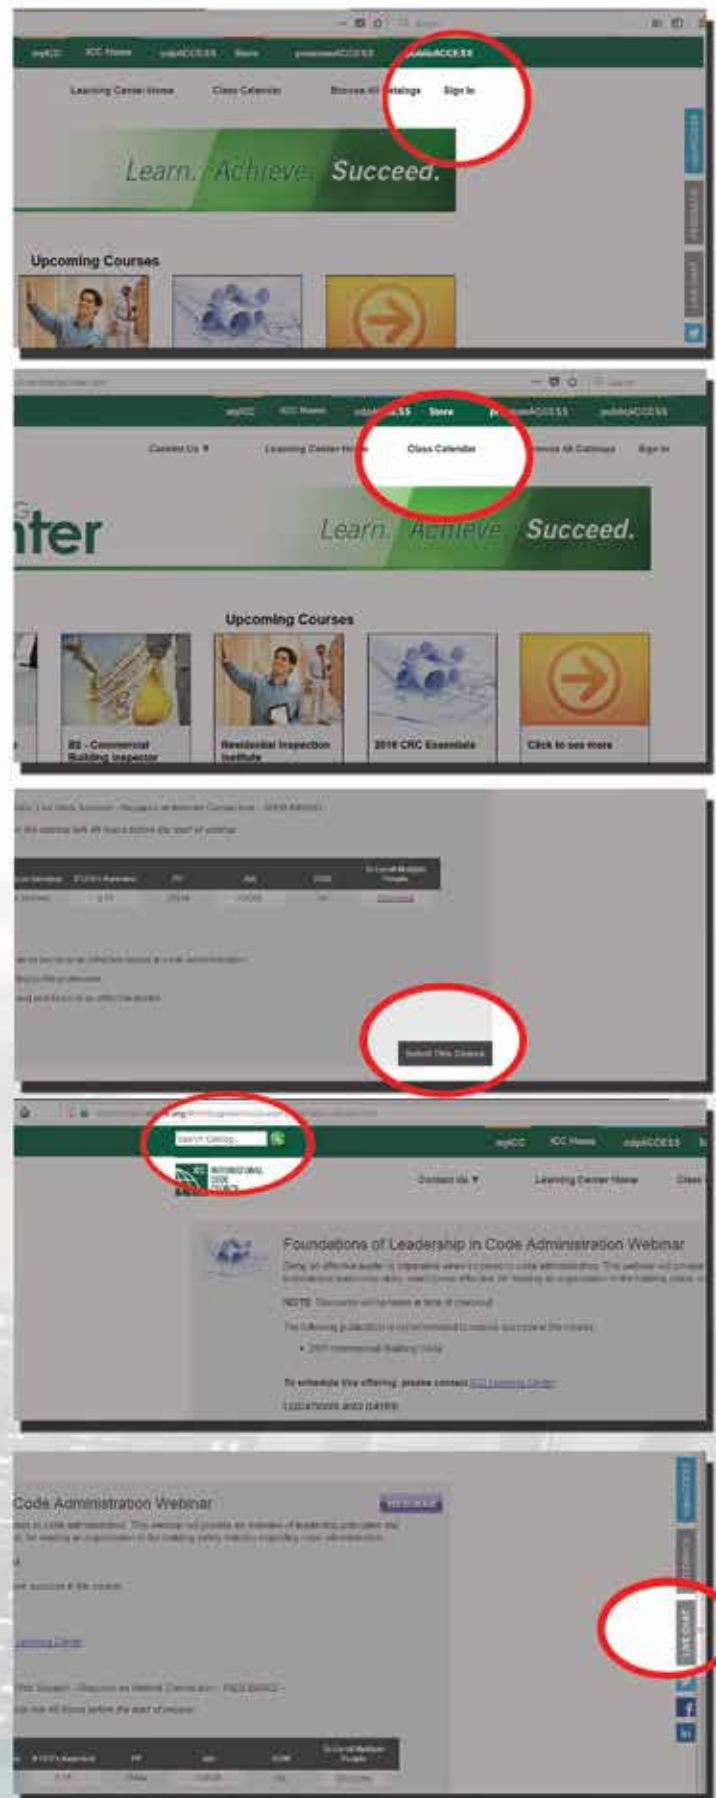

To register for a class, click on the specific class in the class calendar and follow the on-screen prompts.

QUICK TIPS

- Do you know the course name or part of the name? Use the Search feature to go directly to that course.
- Have a question? Use our live chat feature to get immediate answers and help.

Questions? Email us at learn@iccsafe.org. Get the full tutorial from learn.iccsafe.org, scroll to the bottom of the homepage and click the Site Tutorial under the Tools and Links section.

Enter coupon code **T&ECatalog** for a **10% discount!**

What's New?

You asked and we listened! We are excited to announce the first webinar series which is created for the **Permit Technician** where you can take one webinar or take them all! The topics include:

- **Overview of Code Enforcement**
- **Legal Principles for Permit Technicians**
- **Building Department Process for Permit Technicians**
- **Reading Construction Documents**
- **Finding the Answers in the I-Codes**
- **Principles of Customer Service**

\$49 each for members, \$59 each for non-members.

See the "Webinars" section of this catalog for additional course information.

What's Next?

The Learning Center strives to offer training on current and relevant topics while adding new and improved training methods. Whether it be adding a new topic based on survey results, or a convenient new virtual classroom option, we listen and respond to your needs.

CERTIFICATION TEST ACADEMIES

- *CS - Code Specialist Certification Test Academy*
- *67 - Fire Inspector II Certification Test Academy*
- *P1 - Residential Plumbing Inspector Certification Test Academy*
- *14 - Permit Technician Certification Test Academy*
- *M1 - Residential Mechanical Inspector Certification Test Academy*
- *64 - Property Maintenance and Housing Special Inspector Certification Test Academy*

INSTITUTES & CLASSROOM COURSES

Who better to get your training from than those who develop the codes? The Learning Center at ICC recently added **Certification Test Academies** to their catalog of offerings – training and certification all in one. These multi-day sessions are question-based review lead by experts who will help you to prepare for the exam. The final day of the Certification Test Academy will conclude with the ICC certification exam. Take the certification exam while all the information is fresh in your memory. Those not wanting to take the exam on the final day will be given an exam voucher.

Institutes

Multi-day Training Events

Specialized, focused, and in-depth training events designed to engage students with industry peers while developing new skill sets. These events are the perfect destination training event, and are scheduled across the U.S. throughout the calendar year. Earn CEUs in a focused group of professionals.

1-Day Classroom Training

2016 CBC Essentials

CEUs Awarded: 0.6

The goal of this seminar is for participants to identify the critical concepts of the 2016 California Building Code® (CBC®) related to the applicable designs of commercial building requirements. This seminar focuses on the basic concepts of the CBC that provide a basis for the correct utilization of the code. A clear understanding of the identified requirements allows the code user to apply the CBC in specific situations and helps to build an understanding of the intent of the code when asked to make a judgment on code compliance. This seminar will also help the code user to correctly locate code requirements, as well as to begin to develop a procedure for its application.

The following references are included with this Institute:

- *Building Code Essentials, 2015 Edition*

AIA: IC9291

PP: 14581

HSW: No

DATES	CITY	Location & Hotel Information
April 26 2018 <i>Start Time: 8:00 AM</i>	City of Oceanside, CA	City of Oceanside Council Chambers, 300 N. Coast Hwy Oceanside, California 92054

REGISTER \$165.00 (member) / \$198.00 (non-member) *(Continental breakfast included)*

1-Day Classroom Training

2016 CRC Essentials

CEU's Awarded: 0.6

The goal of this seminar is for participants to identify the critical concepts of the 2016 California Residential Code® (CRC®) related to the applicable designs of residential building requirements. This seminar focuses on the basic concepts of the CRC that provide a basis for the correct utilization of the code. A clear understanding of the identified requirements allows the code user to apply the CRC in specific situations and helps to build an understanding of the intent of the code when asked to make a judgment on code compliance. This seminar will also help the code user to correctly locate code requirements, as well as to begin to develop a procedure for its application.

The following references are included with this Institute:

- *Residential Code Essentials, 2015 Edition*

AIA: IC9269

PP: 14217

HSW: No

DATES	CITY	Location & Hotel Information
May 3 2018 <i>Start Time: 8:00 AM</i>	City of Oceanside, CA	City of Oceanside Council Chambers, 300 N. Coast Hwy Oceanside, California 92054

REGISTER \$165.00 (member) / \$198.00 (non-member) *(Continental breakfast included)*

Leadership Institute

CEUs Awarded: 1.2

Are you a leader or seeking to move into a leadership role? Do you want to lead your organization through change? This must-attend institute will address prescriptive skills for managing change within your organization; a critical skill for effective leaders. Leadership techniques that encourage employees to commit to the change process will be shared and practiced. Tactical methods will be practiced to critically examine the behaviors of employees to identify what stage of the change process each is in. **Topics include:** leadership principles, characteristics of effective leaders and developing strong foundational leadership skills.

The following publications are included:
• *Leadership Institute Participant Guide*

AIA: IC9078
PP: 1010-11804
HSW: No

DATES	CITY	Location & Hotel Information
May 8-9 2018 Start Time: 7:30 AM	Las Vegas, NV	The Orleans Hotel & Casino , 4500 W Tropicana Avenue, Las Vegas, Nevada 89103 Phone: 702-365-7111 - Room Rate: \$67.99 + tax

2015 IBC Means of Egress

CEUs Awarded: 0.6

This workshop addresses numerous provisions in the 2015 International Building Code® (IBC®) where the code contains requirements pertaining to establishing a means of egress in buildings. Readers will be presented with specific problems related to means of egress and will be asked to solve each case study. The course is intended to help plan reviewer or building code officials responsible for plan review identify those areas where plan review will include compliance with the IBC. During this training, participants will be listening to lecture and viewing examples, as well as discussing sections of the IBC that pertain to plan review of a commercial building. They will participate in activities that involve a set of plans.

The following publication is recommended to ensure success in the course:

2015 IBC Special Topics Day 1

CEUs Awarded: 0.6

This course has two sessions the morning and afternoon session.

AM SESSION - 2015 IBC Mixed Occupancies

The morning session is 2015 IBC Mixed Occupancies and the afternoon session is 2015 IBC Special Building Types and Feature. Based on the provisions of IBC Section 508, this seminar addresses those special requirements applicable to buildings containing two or more occupancy classifications. The three mixed-occupancy options are presented along with examples and exercises that illustrate the proper application of the provisions. Specific topics include:

- Occupancy classification
- Mixed occupancy conditions
- Accessory occupancies
- Nonseparated occupancies
- Separated occupancies
- Multi-story conditions

PM SESSION - 2015 IBC Special Building Types and Features

Based on selected provisions from Chapter 4, this seminar focuses on several special building types and features. High-rise buildings, underground buildings, parking garages are specialized buildings that have their own unique considerations. Atriums, stages and platforms are building features that are evaluated in a special manner due to the hazards involved. The special detailed requirements and allowances set forth throughout Chapter 4 address a variety of uses and occupancies. Specific topics include:

- High-rise buildings
- Underground buildings
- Covered and Open Mall Buildings
- Parking garages
- Aircraft hangars
- Atriums
- Stages and platforms

2015 IBC Special Topics Day 2

CEUs Awarded: 0.6

This course has two sessions; the morning and afternoon session. The morning session is 2015 IBC Exit Systems and the afternoon session is 2015 IBC Exterior Wall and Opening Protection.

AM SESSION - 2015 IBC Exit Systems

This seminar addresses the provisions of Chapter 10 of the 2015 International Building Code (IBC) regarding specific aspects of the means of egress, those components regulated as exits.

Upon completion, participants will be better able to:

- Determine those means of egress components that are defined as exits
- Identify where exit elements are required
- Identify the specific technical criteria for exits
- Describe the regulation of the exit discharge system

PM SESSION - 2015 IBC Exterior Wall and Opening Protection

This seminar addresses the various provisions in the IBC dealing with exterior wall design and construction. Although such walls are primarily regulated due to their location on the lot, many other additional requirements are set forth in the code. Exterior bearing walls are regulated by Table 601, while the use of exterior exit stairways, exit courts and exterior areas of assisted rescue will also typically mandate some degree of fire-resistance.

- Fire separation distance
- Location on lot
- Multiple buildings on the same lot
- Type of construction
- Combustible materials on exterior side of wall
- Exitways, including exterior exit stairways, exit courts, interior exit stairways and exterior balconies
- Exterior areas of assisted rescue
- Fire wall termination

2015 International Residential Code®

This comprehensive code compiles all building, plumbing, mechanical, fuel gas and electrical requirements for non-commercial one- and two-family dwellings in one convenient code. The regulations cover dwellings and townhouses up to three stories.

As low as: **\$105.00** Item #: 3100S15

2015 International Building Code®

The scope of the International Building Code® (IBC®) includes all buildings except detached one- and two-family dwellings and townhouses up to three stories.

As low as: **\$107.00** Item #: 3000S15

ONLINE LEARNING

Finance & Accounting for the Non-Financial Manager

This four-hour online course is designed for the professional who needs to develop a working knowledge of finance and accounting in order to be a better manager. One cannot run any part of a business without having a working knowledge of finance and accounting. Having this knowledge enables you to do something with the reports that come out every month, to work with vendors and customers in negotiating payment terms and credit, and in planning for the future.

\$119.00 (member) / **\$129.00** (non-member)

Smart Management: Methods for Motivating and Mentoring Your Team

This interactive online course covers the importance of mentoring employees along with methods that can be used to motivate. Several case studies are introduced to give specific examples of how this information can be put to use with employees and leaders of an organization. This course is intended to review and reinforce motivational and mentoring concepts that you may have used or evaluated in your profession.

\$79.00 (member) / **\$89.00** (non-member)

Permit Tech Webinar Series (six-webinar series)

A six-part webinar series focused on the professional development of permit technicians. Each webinar covers a different topic, including: overview of code enforcement, reading construction documents, building department processes, legal principles, finding the answers in the I-Codes, and principles of customer service.

\$49.00/Each (member) / **\$59.00/Each** (non-member)

Basic Blueprint Reading & Related Math

Blueprints are like a game plan for the construction team, and being able to read them is an essential skill everyone needs. That includes everyone from the architect, to the contractor, to the engineer, to the people who physically build the structure. They all make important decisions based on blueprints. Part of being able to read blueprints includes recognizing common elevation symbols, and having some basic math skills. This 3-hour interactive online course covers those areas. It also reviews the basic parts of a residential blueprint, as well as how to read elevations.

WEB SESSION

Fire Protection and the I-Codes Webinar

CEUs Awarded: 0.15

This webinar will provide an overview of the passive and active fire protection features of the International Code Council family of codes that protect life and property from fire. The webinar introduces students to the International Building Code® (IBC®) requirements for passive fire protection such as fire walls, fire barriers, fire and smoke partitions and opening protectives. The International Fire Code® (IFC®) highlights will include maintenance of required fire-resistive construction, and fire protection systems such as sprinklers, standpipes, fire alarms and special hazard systems. Finally, the course will review important fire safety features of heating ventilation and mechanical systems (HVAC) regulated by the International Mechanical Code® (IMC®).

AIA: IC9343 PP: 1010-14963 HSW: No

DATE	TIME	ACCESS
April 18 2018	12:00 PM CST	A link to access the webinar will be sent to the email address that you provide 24-48 hours before the scheduled start of the webinar.

WEB SESSION

Permit Technician: Building Department Processes

CEUs Awarded: 0.15

The cost of running the building department is augmented by assessing and collecting permit fees. The plan review process is the ability to check the construction documents for compliance with the codes. This 1.5-hour webinar will give you an overview of those processes and discuss how fees are calculated. It will also discuss zoning reviews and give participants the fundamentals of how reviews are performed.

WEBINARS

WEB SESSION

Permit Technician: Finding the Answers in the I-Codes

CEUs Awarded: 0.15

Proper administration of a code enforcement department requires that you know the legal ramifications of the action or inaction taken by the building department staff. This 1.5-hour webinar will help you understand many of the legal aspects of administering and enforcing building codes. Knowledge of the law will help you decide on a particular action or caution, or to seek legal advice.
